The Sumter Watchman WEDNESDAY, JUNE 22.

W. Y. PAXTON - - BUSINESS MANAGER.

Applications for Job Work will be made, at the office, to Those. B. Flowers.

The WATCHMAN books are in the keeping of W. Y. PAXTON, who will receipt for monies due and attend to all matters connected with the Advertising or Subscription departments.

Our Advertising friends are requested send in their favors not later than Monday.

The article of our esteemed correspondent "Sumter," although differing from our own views and the position of the Watchman, and notwithstanding we depreciate such discussion at this time, will be published in our next

The warmest sympathies of our community, were recently excited by the death of Mrs. Tono, the deeply pious and devoted companion of Mr. W. A. Topp, the much esteemed agent of the Express at Sumter. Mrs. Todd was truly a mother in Israel, and leaves behind her an example of christian virtues which cannot soon pass away.

Miss EMMA D. BRITTON has removed her Millinery stock to the neat and store recently built by Mr. J. T. FOLOMONS, next door to his own place of business. We congratulate her upon a change involving so much of improvement. She is now better than ever before prepared to meet the wants and suit the tastes of the ladies. See her

advertisement. HAIN. The work of the farm and plantation has been much retarded, of late, by continued, and almost every-day rains The grass, in some places, as a result, has serious hold upon the crop. We have heard of cotton being plowed up, and the land put in corn, in the hopelessness of the prospect of successful cultivation of the former. The crop, generally, does not promise well now, and should the remainder of the season prove unfavorable, the aggregate product of the staple in this section, will not equal the crop of last year, notwith-

The corn crop is promising, but general apprehension prevails of a drought in July, which would prove disastrous, following the present wet season.

KOHLRABI,

Our esteemed and courteous friend, C. H. Moise, of the Planters' Warehouse, left at our office, yesterday morning, a specimen of the singular variety of vegetable known as "Kohlrabi," or turnip cabbage, grown in his garden at this place. The leaves indicate a cross (?) between the turnip and cabbage, and the "head," so called, from which the leaves spring, is about the size of an ordinary turnip. When "tabled," we can form a better opinion of its edibility.

WESTERN METHODIST .- We are much pleased to receive and add this staunch Southern Christian paper to our exchange list. It is published at Momphis, Tenn., and, until now, was entitled the Memphis and Arkansas Christian Advocate. The change of name became necessary, among other reasons, in consequence of the increase in the number of patronizing Conferences. It is now the special organ of the Memphis, North Mississippi, Arkansas, ernment until they have become a burden to the White River, Little Rock and Indian Mission Conferences. AUGUSTA CHRONICLE AND SENTINEL -This is among the most valuable of our Georgia exchanges. As a news and commercial paper, it has enterprise and reliability, and our merchants and business men generally will find it valuable, especially as, under recently established mail facilities, it would afford them as late intelligence as could be received through any other newspaper medium, and as there are now indications of some trace springing up between Augusta and Sumter. BEAUTIFUL WOMEN

All women know that it is beauty, rather than genius, which all generations of mon have worshipped in the sex. Can it be wondered at then, that so much of woman's time and attontion should be directed to the means of develop ing and preserving that beauty ! Women, know too, that when men speak of the intellect of women, they speak critically, tamely, coolly but when they come to speak of the charms of beautiful women, their language and their eyes kindle with an enthusiasm which shows them to be profoundly, if not, indeed, ridiculously in carnest. It is part of the natural sagneity of carnest. It is part of the natural sagacity of women to perceive all this, and therefore employ every allowable art to become the goddess of that adoration. Preach to the contrary, as we may against the arts employed by women for enhancing their beauty, there still stands the eternal fact, that the world does not prefer the society of an ugly woman of genius to that of a beauty of less intellectual acquirements. The world has yet allowed no higher mission to women than to be beautiful, and it would seem that the ladies of of the present age are carrying this idea of the world to greater extremes than ever, for all women now to whom nature has denied the talsman men now to whom nature has denied the talsman is power of beauty, supply the deficiency by the use of a most delightful toilet article, known as the "Bloom of Youth," which has been lately introduced into this country by George W. LAIRD, a delicate beautifier, which smooths out all indentations, furrows, scars, removing tan, freekles, and discolorations from the skin, leav-ng the complexion clear, brilliant, and beautiful the skin soft and smooth. With the assistance of this new American trick of a Lady's toilette, female beauty is destined to play a larger part in the admiration of men and the ambition of women than all the arts employed since her creation Prof. C. F. Chandler, Chemist to the Metropolitan Board of Health, has recently prepared a chemical analysis of this delightful toilet preparration, and reported that the "Bloom of Youth," was harmless, containing nothing injurious to the health. Ladies need have no fear of using this invaluable tollet acquisition Sold by every druggist and fancy goods dealer in
